1897

A Pure Snow White Form

**Feathered Gem**

An Elegant Variegated Form

ORIGINATED BY

*Wm F Bassett & Son*

*Hammonton N J*

# Bassett's New Strain of Centrosemas

For a period of five years we have been carefully working to produce a pure white Centrosema Virginica. During this time some 25,000 seedlings have been grown and bloomed. In 1895 we succeeded in obtaining two plants with pure snow white flowers. From these we have propagated a quantity of plants from root cuttings, and in the same year we succeeded in producing a strain of seed that could be depended on to produce one-third pure white flowers, and in addition to this another third are exquisitely bordered and splashed with white. The remaining third are similar to the original Centrosema Virginica except that there is a much greater range of size and color, many of them being deep violet while others are pale blue. We now have a moderate stock of this seed which we offer at \$2.50 per oz., \$30 per lb. Single packets. 10 cts.

The Centrosema Virginica is one of the most graceful of vines climbing 8 feet high and making an elegant mass of foliage, and is covered with very large blue flowers like inverted sweet peas. The new forms are superior in every way to the old type and will at once supersede it.

## Two New and Beautiful Forms of *Centrosema Virginica*

### White Lady

A pure snow white form

### Feathered Gem

An elegant variegated form

This new strain of *Centrosema Virginica* is the result of a careful and systematic selection covering a period of five years.

#### *The pure white form almost perfect*

The pure white form, which we have named "White Lady," is almost perfect, being exceptionally free flowering, a vigorous grower, flowers very large and just as white as snow. Plants from open ground, 25 cts. each, \$2.50 per doz., \$12 per 100.

#### *The variegated form a beauty*

The variegated form, which we have named "Feathered Gem," has a broad feathered band of pure white around a deep blue center. It is a beauty. The foliage and stems are very dark colored. Very free bloomer. Plants from open ground, 25 cts. each, \$2.50 per doz., \$12 per 100.

#### *Three distinct forms from one strain of seed*

The seed of "Feathered Gem" produce about one-third each of pure white, bordered, and blue flowers, each perfectly distinct. This strain of seed will at once take the place of the old form. Stock limited; orders filled in rotation as long as stock lasts. 10 cts per packet, \$2.50 per oz., \$30 per lb.
